

Coffee Machine Cleaner

Product Code: 5826503

COFFEE AND ESPRESSO MACHINE TABLET CLEANER

It is a tablet cleaner applied in periodic cleaning of household or industrial type espresso and coffee machines. CMC Tablet cleans coffee residues in espresso and coffee machines. It prevents possible clogging, stale coffee and bad smells.

Usage: When cleaning your machine, put 1 piece of CMC Tablet cleaner on the porta filter of your machine. Turn it on and off 5 times at 10 second intervals, unless specified differently in the machine instructions. Then rinse the system of your coffee machine by running plenty of water. For cleaning the porta filter, strainer and similar metal espresso equipment, add 2 CMC tablets to 1 liter of hot water in a container and wait for it to dissolve. Insert the metal parts (spoon surfaces) of the porta filters into the hot water, vertically so that the handles (rubber, plastic or wooden) do not touch the water. You can keep the spoons in the water for half an hour or longer. Now you can easily clean the inside of the porta filter with a sponge or cloth. Do not touch plastic, rubber or wooden parts. It can color. Use protective equipment. In case of contact with eyes, rinse carefully with water for a few minutes. Remove contact lens while rinsing. Close the container airtight.

Exp. Date: 2 years after production date.
Package Included: 100 Tablet x 2,2 gr.
